

## Trinity Academy Leeds

**Policy:** Careers Policy

**Date of review:** September 2022

**Date of next review:** August 2023

**Lead professional:** R Goulard

**Status:** Non-Statutory

## **1. Purpose of policy and guiding principles**

- 1.1 Careers education, information and guidance (CEIAG) programmes make a significant contribution to preparing young people for the opportunities, responsibilities and experiences of adult life.
- 1.2 The CEIAG programme is designed to be progressive from Year 7 to Year 11 and support students in making informed choices in years 8, 9 and 10.
- 1.3 At Trinity Academy Leeds we aim to raise aspirations, challenge stereotypes and encourage students to consider a wide range of careers. Through careers education and guidance, it is students will be encouraged to make the most of their talents and go on to jobs or courses which suit their skills, needs and ambitions. With this in mind, our CEIAG programme is called Empower, as we work to empower students to make the aforementioned choices (see 3.1).
- 1.4 In particular we intend our students to:
  - Develop a broad understanding of the world of work and an ability to respond to changing opportunities.
  - Develop independent research skills so that they can make good use of information and guidance.
  - Develop the skills they need to review achievements, plan future actions, make decisions, present themselves well and cope with change and transition. This is supported through the completion of reflective Empower booklets five times across the academic year, and through their bi-annual Architect's Review of the Build.

We recognise that the process of making career decisions is a lengthy one and that most of our students will make their final choices only after completing their higher education course.

## **2. Commitments**

- 2.1 Directors, Governors and staff are committed to:
  - The provision of resources and advice to enable students to understand and develop career choices and to ensure that careers education is seen as part of the overall curriculum and learning framework for all years.
  - Encouraging students to achieve and to be ambitious through the lens of careers.
  - Involving students, parents and carers in the further development of careers work through the Empower careers pathway.
  - Working with support agencies so that no student is disadvantaged in gaining access to education, training or work.
  - Working towards the Quality Standards in careers Education award.
  - Working towards meeting all eight Gatsby Benchmarks.

## **3. Provision**

- 3.1 At TAL, careers provision is through the lens of Empower Careers Pathways. This initiative is part of the One Curriculum at TAL, provides world-class careers-based experiences for all students from the first term of Year 7 and runs through all areas of academy life. Empower ensures that all staff are trained on the delivery of careers in the classroom, through Involve clubs and, most prominently, through the five timetabled Empower careers afternoons which run annually for Phase One. Empower also runs through the weekly Inspire Assemblies, through visiting speakers and experiences and is regularly woven in to the daily delivery to year-groups from Heads of Year in the form of Personal Development.
- 3.2 Careers includes education, information and guidance. Careers education helps our students develop the knowledge and skills they need to make successful choices, manage transitions in learning and move into work. Through guidance students are able to use their knowledge and skills to make the decisions about learning and work that are right for them. Careers education forms an integral part of the taught and co-curricular offer for students. It is delivered through the curriculum in individual subject areas and via events and assemblies.

- 3.2 We are well supported by external agencies, who provide qualified and impartial careers advice to our students. Most prominently the West Yorkshire LEP, who have provided industry partners with Burberry and bespoke guidance on meeting the Gatsby Benchmarks.
- 3.3 As appropriate, careers guidance interviews will take place on a one to one basis, although group sessions will be organised for students with interests in particular vocations.
- 3.4 Careers information and resources are available in school for students to access through identified careers leaders and through the careers section of our library. Our CEIAG programme aims to guarantee all students who leave Trinity Academy Leeds at the end of Year 11 have an offer of a place to move onto.

### 3.5 Phase 1 provision includes:

Year 7	<ul style="list-style-type: none"> <li>• Assembly introducing Empower.</li> <li>• 5 calendared Empower afternoons. - Gained experience of a professional work environment.
- Gained extra understanding of the Labour Market Index.
- Have had at least two employer interactions.
- Had opportunities to take part in high quality virtual work experience.

#### **4. Equal opportunities**

Trinity Academy Leeds operates through the Equality Pledge and therefore promotes equal opportunities. TAL is dedicated to using every opportunity to challenge stereotypes and to raise aspirations. Empower is provided to all students and provision is made to allow all students to access the Empower curriculum. Students are encouraged to follow career paths that suit their interests, skills and strengths with the absence of stereotypes and are provided with first-hand experience of a wide variety of industries. All students are provided with the same opportunities and diversity is celebrated. Students with Special Educational Needs are offered additional careers advice and support. For further information, please refer to the Special Educational Needs Report. The destinations of our leavers are closely monitored and younger students informed so that we are aware of trends and opportunities.

#### **5. Relationship to other parts of the curriculum and other policies**

Empower is part of TAL's One Curriculum. Empower runs through all aspects of the curriculum as students engage with careers education through Personal Development, curriculum lessons, Involve Clubs, Inspire assemblies, the dedicated section of the library and additional, optional, opportunities. The whole school remit of careers is recognised and the curriculum is developed alongside that of other areas so that careers education through Empower is a pillar of the One Curriculum.

#### **6. Parents and Carers**

Parental involvement is encouraged at all stages. Parents at TAL are always encouraged to speak with Team Leaders initially, in order to support their children to make aspirational and appropriate choices. As part of the Family Build and in addition to Parents Evenings, parents are invited on-site to engage with a presentation on Empower pathways, and to ask individual questions of the careers lead. There is also support available on the website and online resources have been specifically chosen to help parents become more involved in the options process. All online resources are accessed through links on the school website. They are also visible below:

## **7. Management**

The Assistant Principal for Personal Development oversees the implementation of the careers programme. The Assistant Principal also oversees Empower and careers appointments for the careers advisor.

## **8. Resources and partnerships**

The school has accessible careers resources in the library as well as access to a private office for careers interviews. A minimum of one careers advisor is available on site each day providing independent and impartial careers advice. Careers interviews are scheduled for all Year 11 students, with additional interviews arranged on a case by case basis. The Academy has robust partnerships with a huge number of local businesses, HE institutions, the Leeds City Region Enterprise Partnership (the LEP), all of whom offer valuable first-hand advice, resources and workplace experiences to our students, through the various means outlined in point 5.

## **9. Monitoring, evaluation and review**

The careers programme is monitored regularly, reviewed and revised to meet the needs of our student cohort. Trinity Academy Leeds will measure the effectiveness of Empower by considering data from internal surveys, soft data from reflections in booklets and, ultimately, destination data for our students at all transition stages. We also take into consideration the findings of student voice and feedback from staff, students and employers after Empower events have taken place. Furthermore, we are committed to working towards all Gatsby Standards and to ensure we are recognised for the Quality in Careers Standards Award. We welcome regular review from our designated careers governors.
